

# Blocklist Alerts

Set up daily, system-generated alerts to receive valuable information about blocked domain URLs including publisher sites and the number of blocked domains for the time period in the report.

## Turn On Alerts

When you turn on the alerts, a daily alert will be sent to all of the email address you enter. Follow these simple steps:

1. Navigate to the **Creatives** screen, select the **Keyword** tab, and click **Edit Alerts**.
2. Slide the toggle to **ON**.
3. Enter an email addresses and click **Add**. You can add as many email addresses as you'd like.
4. Click **Done**.

## Turn off alerts

1. Navigate to the **Creatives** screen, select the **Keyword** tab, and click **Edit Alerts**.

To turn off alerts for a specific email address:

- a. Use the  icon to remove a specific email address from the list.
- b. Choose **Yes** or **No** when prompted.
- c. Click **Done**.

To temporarily turn off alerts for all email addresses in the list:

- a. Slide the toggle to **OFF**.
- b. You can reactivate the alerts at any time by simply sliding the toggle back to **ON**.
- c. Click **Done**.
