

Community FAQ

How do I navigate in a space?

A "space" is an area of the Community where related content is contained (e.g., Buyer APIs, Product Documentation, etc.). The **Page Tree** appears on the left side of each page (except the home page and top-level space pages). The Page Tree lists all of the contents of the current space, enabling you to easily navigate to other related content. Use the arrows to expand content groupings and click a document title in the list to view it.

The screenshot shows the PubMatic website interface for the 'Mobile-specific Parameters' page. The top navigation bar includes 'PubMatic', 'Product Documentation', 'Developers', 'Resources', 'PubMatic Sites', and 'Japanese Community', along with a search icon and a 'LOG OUT' button. The page title is 'Mobile-specific Parameters'. On the left, a 'PAGE TREE' sidebar is highlighted with a red box, showing a list of categories: 'Ad Formats', 'Mobile-specific Parameters', 'Native Ads API', 'Native Parameters', 'Rich Media Parameters', 'Video-specific Parameters', 'Analytics', 'Copy of Ad Tech Glossary', and 'Getting started'. The 'Analytics' category is expanded, and 'Getting started' is selected. The main content area features a 'This document covers the following topics:' section with three links: 'Mobile Application Profile-specific Parameters', 'Mobile Application-specific Parameters', and 'Mobile-specific Parameters for Web and Application'. Below this is the main heading 'Mobile Application Profile-specific Parameters', followed by introductory text and a 'Notes' section with two bullet points. At the bottom, a table header is visible with columns 'PARAMETER', 'MANDATORY', and 'DESCRIPTION'. On the right, a 'TABLE OF CONTENTS' sidebar is also visible, listing the same three topics as the main content area.

How do I navigate within a document?

The **Table of Contents** on the right displays high-level headings in the current document. Items in the list are hyperlinked. Click an item in the list to immediately view that part of the document. Most documents contain a link at the bottom to easily click to return to the top of the page.

This screenshot is identical to the one above, showing the PubMatic 'Mobile-specific Parameters' page. However, in this version, the 'TABLE OF CONTENTS' sidebar on the right is highlighted with a red box. The 'TABLE OF CONTENTS' sidebar lists the following items: 'Mobile-specific Parameters', 'Mobile Application Profile-specific Parameters', 'Mobile Application-specific Parameters', and 'Mobile-specific Parameters (Web/Application)'. The rest of the page content, including the Page Tree on the left and the main document text, remains the same as in the previous screenshot.

What keyboard shortcuts can I use?

Action	Keyboard Shortcut
